

STUBi DROP-IN ANCHOR

3/8" Short Drop-In Anchor for Hollow Core Slabs

The **UCAN STUBi Drop-in Anchor** is an internally threaded, flush mounted expansion anchor for shallow embedment anchoring applications (3/4"). The STUBi anchor is pre-assembled with an internal expander plug and is zinc plated.

The matching UCAN setting tool provides correct setting everytime. The anchor is designed to provide reliable fastening in hollow core panels, pre-cast and post tension slabs.

FEATURES:

- Pre-assembled with expander plug
- Lip offers flush installation
- Shallow embedment design

TYPICAL APPLICATIONS:

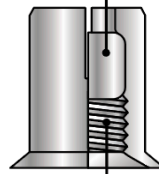

- Overhead fastenings into hollow core pre-cast and post tensioned slabs

LIMITATIONS:

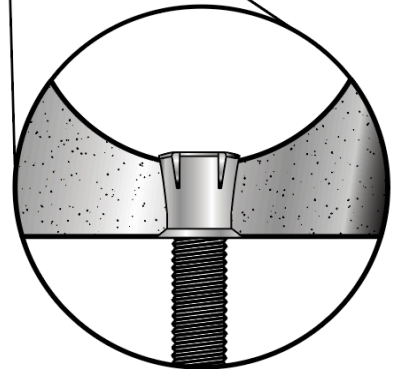

- Not recommended for uncured concrete (less than 7 days old), lightweight concrete or brick

Internal Expander Plug

UNC 3/8-16 thread

Overhead Core-slab
